

Section I

Department of Energy Privacy Impact Assessment (PIA)

Name of Project: Access Security Plan

Bureau: Department of Energy

Project's Unique ID: ASP

Date: August 6, 2008

A. CONTACT INFORMATION:

1) Who is the person completing this document?

Name: Lynn Harder

Title: Senior Applications Programmer

Organization: Software Control International

Address: P.O Box 4699, Building 1007, MS 7022

Oak Ridge, TN. 37831-7022

2) Who is the system owner?

Name: Judy Beverly

Organization: Bechtel Jacobs Company LLC

Address: P.O Box 4699, Building 1652, MS 7350

Oak Ridge, TN. 37831-7350

3) Who is the system manager for this system or application?

Name: David D. Newton

Title: Applications Manager

Organization: Bechtel Jacobs Company LLC

Address: P.O Box 4699, Building 1007, MS 7022

Oak Ridge, TN. 37831-7022

4) Who is the IT Security Manager who reviewed this document?

Name: David Rose

Title: Cyber Security & Compliance Manager

Organization: Bechtel Jacobs Company LLC

Address: P.O Box 4699, Building 1007, MS 7022

Oak Ridge, TN. 37831-7022

5) Who is the Privacy Act Officer who reviewed this document?

Name: Amy Rothrock

Title: Privacy Act Officer

Organization: Department of Energy/Oak Ridge Operations

Address: 200 Administration Rd.

Oak Ridge, TN. 37830

B. SYSTEM APPLICATION/GENERAL INFORMATION:

- 1) Does this system contain any information about individuals? Yes
 - a. Is this information identifiable to the individual? Yes
 - b. Is the information about individual members of the public? Yes
 - c. Is the information about DOE or contractor employees? Yes

2) What is the purpose of the system/application?

The Access Security Plan (ASP) application was established to allow properly escorted uncleared personnel to work in limited areas at ETP. ASP provides documentation that uncleared personnel have been authorized by the site Security organization to access the limited area and provides visible evidence to cleared personnel in the limited area that uncleared personnel are present.

3) What legal authority authorizes the purchase or development of this system/application?

Department of Energy

C. DATA in the SYSTEM:

1) What categories of individuals are covered in the system?

Federal (DOE), prime contractor (BJC), other prime contractors (Y-12, ORNL, Paducah, etc.), subcontractors, and the public

2) What are the sources of information in the system?

a. Is the source of the information from the individual or is it taken from another source?

Some data comes directly from individuals and some information comes from other applications within the boundary.

b. What Federal agencies are providing data for use in the system?

DOE Clearance Office.

c. What Tribal, State and local agencies are providing data for use in the system?

None

d. From what other third party sources will data be collected?

None

PIA – Access Security Plan, ETTP Business Systems

e. What information will be collected from the individual and the public?

This application collects (from employees) the following:
SSN and Date of Birth.

3) Accuracy, Timeliness, and Reliability

a. How will data collected from sources other than DOE records be verified for accuracy?

BJC Security and Emergency Management personnel have processes in place to ensure accuracy of the data. Data is provided by the person being enrolled. That information is gathered either directly from the individual or from a Badge Request form submitted by the individual's employer. Any errors that could exist in ASP are due to human error during the enrollment process or incorrect information provided by the individual or by the employer. Every effort available to the enrollment personnel is made to ensure the data recorded into ASP is correct. The Clearance Office also performs a quality assurance review.

b. How will data be checked for completeness?

BJC applications require a complete set of data for processing purposes. Procedures and processes are in place to ensure the completeness of the data.

c. Is the data current? What steps or procedures are taken to ensure the data is current and not out-of-date?

Yes. BJC Security and Emergency Management personnel have processes and procedures in place to ensure the accuracy of the data.

d. Are the data elements described in detail and documented?

No.

D. ATTRIBUTES OF THE DATA:

1) Is the use of the data both relevant and necessary to the purpose for which the system is being designed? Yes, required by DOE Order M473.1-1.

2) Will the system derive new data or create previously unavailable data about an individual through aggregation from the information collected, and how will this be maintained and filed? No

3) Will the new data be placed in the individual's record? N/A

4) Can the system make determinations about employees/public that would not be possible without the new data? N/A

PIA – Access Security Plan, ETTP Business Systems

- 5) How will the new data be verified for relevance and accuracy? N/A**
- 6) If the data is being consolidated, what controls are in place to protect the data from unauthorized access or use? N/A**
- 7) If processes are being consolidated, are the proper controls remaining in place to protect the data and prevent unauthorized access? N/A**
- 8) How will data be retrieved? Does a personal identifier retrieve the data? If yes, explain and list the identifiers that will be used to retrieve information on the individual.**
The data can be retrieved by any field in the database, including SSN and Date of Birth.
- 9) What kinds of reports can be produced on individuals?**
Numerous business-related reports are available with information about individuals (employees and subcontractors). Generally, the reports do not include privacy information.
- What will be the use of these reports?**
Reports are used for the business of the BJC Security and Emergency Management Organization.
- Who will have access to them?**
Reports are available to certain security staff personnel on an as-need basis.
- 10) What opportunities do individuals have to decline to provide information (e.g., where providing information is voluntary) or to consent only to particular uses of the information (other than required or authorized uses)?**
None.

E. Maintenance and Administrative Controls:

- 1) If the system is operated in more than one site, how will consistent use of the system and data be maintained in all sites?**
The applications do not cross Accreditation Boundaries.
- 2) What are the retention periods of data in the system?**
Seventy (70) years.
- 3) What are the procedures for disposition of the data at the end of the retention period? How long will the reports produced be kept? Where are the procedures documented?**

PIA – Access Security Plan, ETTP Business Systems

Disposition of the data for the BJC D&D Contract will occur at the end of the contract. At that time, data will be turned over to DOE or designated Contractor. Currently reports are maintained only as long as the information is required.

- 4) **Is the system using technologies in ways that DOE has not previously employed (e.g., monitoring software, Smart Cards, Caller-ID)?** No
- 5) **How does the use of this technology affect public/employee privacy?** N/A
- 6) **Will this system provide the capability to identify, locate, and monitor individuals?**
No. The system authorizes access into security areas.
- 7) **What kinds of information are collected as a function of the monitoring of individuals?**
N/A.
- 8) **What controls will be used to prevent unauthorized monitoring?**
No monitoring is possible outside of normal applications usage.
- 9) **Under which Privacy Act system of records notice does the system operate?** N/A
- 10) **If the system is being modified, will the Privacy Act system of records notice require amendment or revision?** N/A

F. Access to Data:

- 1) **Who will have access to the data in the system?**
Access to data is controlled by the applications administrators for each application. System manager, administrators, and operators have access to the system.
- 2) **How is access to the data by a user determined?**
Access to data is approved by the application owners and granted by the application administrator on a need-to-know basis.
- 3) **Will users have access to all data on the system or will the user's access be restricted?**
User access is controlled by the system administrators by granting roles to individuals. Roles are restricted to see only the functionality/data required by that role.
- 4) **What controls are in place to prevent the misuse (e.g., unauthorized browsing) of data by those having access?**

PIA – Access Security Plan, ETTP Business Systems

Application owners enforce separation of responsibilities to only allow access to functionality/data necessary to perform job functions.

5) **Are contractors involved with the design and development of the system and will they be involved with the maintenance of the system? If yes, were Privacy Act contract clauses included in their contracts and other regulatory measures addressed?** Yes, DOE Privacy Act clauses are included.

6) **Do other systems share data or have access to the data in the system? If yes, explain.** No.

7) **Who will be responsible for protecting the privacy rights of the public and employees affected by the interface?**

Applications that process Privacy Act data are classified as “Protected” by the BJC Cyber Security Manager. Those applications then document and test the controls necessary to protect the interfaces/data.

8) **Will other agencies share data or have access to the data in this system?**
No.

9) **How will the data be used by the other agency?**
N/A

10) **Who is responsible for assuring proper use of the data?**
N/A
